SUMMARY

I'm a Computer Engineering graduate passionate about front-end web development. With hands-on experience in embedded systems using C++, I'm now focused on mastering HTML, CSS, JavaScript, and React to build dynamic user interfaces. I'm committed to continuous learning and eager to contribute my technical skills to impactful projects and innovative teams.

EXPERIENCE

Internship   Jan 2023 – Feb 2023
ICONNET

- **Quality of Service (QoS) Monitoring:** Learned and applied methods to assess and ensure service quality for field technicians, contributing to improved customer satisfaction and network reliability.
- **On-Site Internet Activation & Installation:** Assisted technical teams in deploying fiber optic connections at customer locations, gaining practical insight into installation protocols, troubleshooting techniques, and client interaction.
- **Inventory Management:** Conducted thorough inventory checks on equipment and materials ordered by the company, ensuring accurate stock records and supporting logistics efficiency.

EDUCATION

Universitas Andalas   Aug 2020 – July 2024
Bachelor's Degree in Computer Engineering

- Thesis: *Early Detection System Of Disease Symptoms Based On Vital Signs (TTV) Using Fuzzy Logic.*
- Graduated with GPA: 3.37 / 4.00.

CERTIFICATES

Introduction to Web Programming

Dicoding Indonesia

Fundamentals of JavaScript Programming

Dicoding Indonesia

Front-End Web Development for Beginners

Dicoding Indonesia

Electronic Engineering with Artificial Intelligence Online Workshop   Feb 2022 – Apr 2022

Ming Chi University of Technology

SKILLS

Software Developer: Intermediate
Embedded System: Intermediate
UI/UX Designer: Intermediate
Front-End Engineer: Intermediate

LANGUAGES

Bahasa Indonesia: Native
English: Fluent
